01

Choose Your Positioning

Niche + Main Keyword

Your profile must look like it was written for **one clear type of job**. If it looks generic, clients scroll past. If it looks specific, they stop and read.

Pick these 3 things:

- **1 main service** you want most (e.g., Automation, AI, Web Design, Copywriting, Video Editing...)
- **The client type** you want (founders, agencies, ecommerce, SaaS, coaches...)
- **The outcome** you deliver (save time, increase conversions, reduce errors...)

OUTPUT

A short sentence you can repeat everywhere (title, bio, portfolio role fields).

WORKSHEET: My Positioning

My main service: _____

My ideal client: _____

The outcome I deliver: _____

My positioning statement: _____

02

Build Your Top Skills List

From Real Jobs

Do this once and you will always know what keywords to use.

How to do it:

1. Go to **Find Work** in Upwork and search the jobs you actually want.
2. Open **30 ideal job posts** (not random -- only jobs you would want).
3. Under each job, **copy the skills** shown below the post into a document.
4. After 30 jobs, paste into ChatGPT: *"remove duplicates, count frequency, return top 15."*
5. From the top 15, pick your **top 3 core skills**.

TIP

Why this works: Upwork ranks you higher when your profile skills match the skills on the job post. This is reverse-engineering the algorithm.

OUTPUT

Top 15 skills + Top 3 core skills.

WORKSHEET: My Top Skills

- | | | | |
|-----------|-----------|-----------|-------|
| 1. _____ | 2. _____ | 3. _____ | _____ |
| 4. _____ | 5. _____ | 6. _____ | _____ |
| 7. _____ | 8. _____ | 9. _____ | _____ |
| 10. _____ | 11. _____ | 12. _____ | _____ |
| 13. _____ | 14. _____ | 15. _____ | _____ |

TOP 3 CORE: 1. _____ 2. _____ 3. _____

03

Add Verified Skills

Optional but Valuable

Verified skills increase trust and discovery.

- Upload certificates you already have (only relevant ones).
- Search for badges/certificates that verify your exact skills.
- Credly can help you find which badges verify which skills.

NOTE

Do not chase certificates that do not match your target jobs. Only relevant ones.

04

Fill Profile Completeness

Upwork Checks

Go to **Find Work** -> **Complete your profile**. Even if it says 100%, click to check.

Linked Accounts
(GitHub, etc.)

Education 2 entries

Other Experience
Human line

Portfolio 9-12 items

Employment 3-4
entries

OUTPUT

The "Complete your profile" checklist shows no missing items.

05

Optimize Your Profile Title

Headline Formula

Goal: get clicks AND rank for your keyword.

Title Formula:

Pattern Disruptor + Main Keyword

- **Pattern disruptor** = something unique about you (200+ projects, former role, niche proof).
- **Main keyword** at least once. Twice if it reads naturally.
- **Avoid keyword stuffing.** Spammy = lower conversions.

Examples:

Former [Role] API Integration +
Automation Specialist

[Outcome] Builder Zapier + Make.com
Automation

[Unique Proof] GoHighLevel
Automation & CRM

WORKSHEET: My Title

My pattern disruptor: _____

My main keyword: _____

My final title: _____

06

Rewrite Your Bio

7-Part Structure

The first 3-5 lines must be persuasive for humans. Keywords come later.

Bio Structure Flow:

6. Proof: certificates, years, projects, credibility.

7. Reassurance + CTA: tell them the next step.

TIP

Use your main keyword naturally 3-5 times. No giant keyword dumps. Avoid AI formatting characters. Use normal punctuation and simple English.

**WORKSHEET: My Bio Sections**

Hook (numbers/results): _____

Who I help: _____

What I offer: _____

Common projects: _____

Tools I use: _____

Proof: _____

CTA: _____

07

Profile Photo

Trust Builder

Keep it simple: **clean, friendly, professional.**

Smile naturally (teeth is fine)

Neutral or indoor background

Good lighting face centered

No heavy filters or busy BGs

OUTPUT

A photo that feels approachable and competent.

08

Portfolio

9-12 Items

Portfolio is **keyword sensitive**. Edit older items to fill new fields (especially Role).

- Minimum 4 items for full points. **Optimal: 9-12 items.**
- Use keywords in: Title, Role, Description, Skills.
- Add a short video (30-60 sec) showing the result if possible.

TEMPLATE: Portfolio Item

Title: [project outcome] + [main keyword]

Role: [your role with keyword]

Description: [problem] -> [what you built] -> [result]

Top 5 skills: [from your Top 15 list]

09

Other Experience + Education

Human Touch

Use Other Experience to **sound human**. Education: add 2 entries, move on.

Examples:

In my free time I like to work out and focus on running.

I like to play guitar and learn new songs.

I enjoy building small tools for fun and sharing them.

OUTPUT

Profile looks complete and human.

10

Video Introduction

30-60 Seconds

Speak **from experience**, not from a list of technologies.

Script Flow:

TIP

Show a screenshot or quick screen recording of a result (dashboard, automation, workflow). Instant credibility.

WORKSHEET: My Video Script

Who I help + outcome: _____

Real project example: _____

How I work: _____

CTA: _____

11

Employment History

3-4 Entries Maximum

This section is **keyword sensitive**. Add entries based on real or platform projects.

- At least **3 entries**, max 4.
- Each entry: what you did + 2-4 bullet highlights.
- Add a mini keyword line at the end (clean, not spammy).

TEMPLATE: Employment Entry

Summary: Built [what] for [client type] to achieve [result].

Highlights:

- [feature or deliverable]

- [feature or deliverable]

- [result with numbers]

Keywords: [your top skills, comma separated]

12

Specialized Profiles

Category Match

Match specialized profiles to your target job categories.

- **Create 3 specialized profiles.**
- If you do one thing, all 3 can be similar.
- If multiple services, split by category.
- When applying, use the matching profile.

OUTPUT

Higher chance to show as "Best Match" when category aligns.

WORKSHEET: My 3 Profiles

Profile 1 (category):

Profile 2 (category):

Profile 3 (category):

13

Profile Settings

Remove Friction

Small settings can block you from jobs.

Availability As needed +
Open to offers

Experience Level Match
your target jobs

Hourly Rate Research
gaps Stay consistent

Fixed Price Match the
budget amount

Hourly Rate Research:

1. Search your keyword on Upwork, review rates on first pages.
2. Look for gaps where competition is lower.
3. Pick a rate inside a gap and keep it stable.

WORKSHEET: My Rate

Rate range I found: \$____ - \$____

Gap I identified: \$____ - \$____

My hourly rate: \$____

14

Project Catalog + Consultation

Lead Generators

Use these as **lead generators** to start conversations.

Project Catalog Rules:

- **Thumbnail:** your face + 3-5 readable words.
- **Pricing:** ONE tier only (avoid confusion).
- **Description:** deliverables + benefits + CTA.
- **Before you buy:** ask them to message first.

TEMPLATE: Pre-Purchase Note

"Before you buy, please message me first. _____
I will confirm the best approach for your setup _____
and tell you if this project is the right fit." _____

Consultation: 1 option only (e.g. 60 min). Diagnose, then propose a custom solution.

OUTPUT

More inbound leads and more calls.

15

Applying to Jobs

Short Proposal + 1 CTA

Clients do not want long proposals. **Short, clear, specific.**

Proposal Flow:

TEMPLATE: Simple Proposal

Line 1: "I can help you [exact thing] without _____
extra complexity." _____

Plan: 1) [step] 2) [step] 3) [step] _____

Quick question: [one scope-clarifying question] _____

CTA: "Message me for a quick Loom with the approach." _____

Follow Up:

- If interest + silence: short follow up with value.
- Space 2-3 days apart. Stop if they say no.

TEMPLATE: Follow Up Message

"Hey [name], quick check in -- _____

I can still help you with [their problem]. _____

Want me to share a 60s Loom showing the workflow _____

and estimated effort?" _____

16

Optional: Boosting

Only After Conversion

Boosting works **only if your profile already converts** and you reply fast.

- Boost only the matching Category/Specialty.
- Start with a small daily cap, then adjust.
- Track: **Connects -> conversations -> invites -> hires**.
- Do not boost when you cannot reply quickly.

NOTE

Only boost AFTER completing Steps 1-15 and seeing your profile convert. Boosting a bad profile just burns Connects faster.
